

THE CASE OF BRAZIL

Sérgio R. K. Franco
CONAES

Comissão Nacional de Avaliação da Educação Superior

BRAZIL

SINAES – National System of Evaluation of High Education

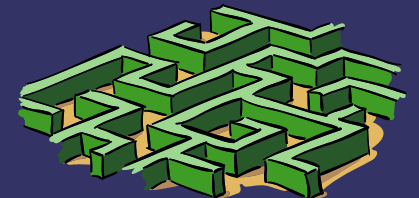

- evaluation of institutions
 - Self Evaluation
 - External Evaluation
- Evaluation of courses
- Evaluation of students performances

ENADE

National Examination of Evaluation of the Performance of Students

- General contents (25%) y specific contents (75%)
- starters and concluders students. (IDD – Difference of performances Index)
- Character universal to the courses and by sample to the students
- Cycles: three years
- 48 areas (100 sub-areas)
- All intermediaries results are published

TODAY

- ENADE is **one** quality indicator, is not enough
- Systemic conception
- Element predictor of quality of the course
- Clear understanding of ENADE evaluates the course, don't the students

QUESTIONS

To be universal and compulsory:

- The problem of the inevitable ranking
- Assessment of students is different from evaluation of courses
- The problem of the boycott of students
- Risk to be considered the main indicator
