ORGANISATIONAL ASPECTS

FINANCIAL STABILITY

-  INQAAHE's CEO has established legal operations in the United States of America in order to support an employment infrastructure.
-  The Executive Committee, along with the new CEO, are working on a number of internal initiatives to establish a financial infrastructure to allow for revenue collection for services, support stronger analytical capabilities regarding budget projections, and allow for INQAAHE to stand independently when the contract with the current Secretariat ends.

- 🌐 The Secretariat is currently planning for a financial review, which will take place at the end of Fiscal year 2019 and be reported to the members at the March 2020 General Assembly meeting.
- 🌐 The Secretariat and the CEO have initiated administrative reforms, including ensuring all members are current in their dues payments, in order to ensure INQAAHE has an accurate picture of its current member composition. This will allow INQAAHE to better support and serve its active members moving forward.

CAPACITY

- 🌐 The Board of Directors opened nominations to appoint a co-opted Board member with specific expertise in the financial or legal management of non-profit organizations, particularly in one of the country contexts in which INQAAHE legally and financially operates (New Zealand, Spain and the United States). All applications were reviewed fully and the Board selected two new co-opted members at its October 2019 meeting. Upon acceptance, those members will be announced to the INQAAHE community.

OPERATIONS

- 🌐 The Communications Committee of INQAAHE has established a new modern newsletter in a format accessible to mobile devices, and with a new sponsorship option.
