

****Certificate of Appreciation****

Re: Reference for Dr Sabah Hussien El-Ghaiesh

To Whom It May Concern,

Dr. Sabah El-Ghaiesh has a PhD degree in Immunopharmacology, University of Liverpool, UK (2011), MSc in Pharmacology, and A bachelor in Medicine and Surgery (MBBS, hons) from Tanta University, Egypt. Dr El-Ghaiesh has over 2 decades of continuous academic expertise including 10 years of work at the University of Tabuk, with strong contributions in the field of quality assurance and academic accreditation.

This is to certify that Dr. Sabah Hussien El-Ghaiesh has significantly contributed to the Faculty of Medicine's (MBBS program) quality assurance and accreditation success. Dr El-Ghaiesh had chaired the Measurement and Evaluation Unit at the Faculty of Medicine, University of Tabuk in January 2021. She is a member of the Accreditation steering Committee in Faculty of Medicine that had oversaw all committees responsible for accreditation standards, and the SSRP final review processes.

Dr El-Ghaiesh has robust experience as a coordinator of the Medicine and Surgery Program who managed the execution and electronic reporting of the MBBS program courses through follow up and introducing the continuous support to course coordinators. She led several initiatives to align learning outcomes with NCAAA standards and has trained numerous staff on the use of internal quality platforms.

Dr El-Ghaiesh has a pivotal role in the establishment of the policies and procedures for assessment of MBBS program learning outcomes at the level of courses and the program. She follows with the course coordinator the assessment processes of course learning outcomes, and herself is responsible to measure the program learning outcomes annually since academic year 2018.

She has been a member of the Internal Audit Committee at the Deanship of Quality and Academic Accreditation at the University of Tabuk since 2022. She has extensive expertise in data handling using the best practices with advanced skills using data visualization tools (dashboard and power BI). She has established the best practices Faculty of Medicine stakeholder evaluation surveys in accordance with standards of quality recommended by the National Center Academic Accreditation and Assessment (NCAAA).

As Dean of Quality and Academic Accreditation, I have worked directly with Dr. El-Ghaiesh on the auditing of the University of Tabuk academic programs accreditation processes.

Dr El-Ghaiesh has designed data analysis forms for all stakeholders surveys which are in use as analysis templates for all university of Tabuk academic programs, and they are recommended to academic programs by the Deanship of Quality and Academic Accreditation. Dr El-Ghaiesh through her contribution helped to unify the practices regarding stakeholder evaluation all through the university academic programs (51 program). At multiple projects, she provided consultancy services on the university of Tabuk program accreditation.

She is a member of the Executive Committee for Institutional accreditation responsible for standard 1&2. She provided several consultancy services to the University of Tabuk academic programs accreditation as a member of the University Committee responsible for follow up of academic programs accreditation.

With great enthusiasm, I recommend Dr. Sabah Hussien El-Ghaiesh, who has demonstrated exceptional dedication and expertise in reviewing the academic quality of programs at the University of Tabuk.

Her strategic mindset, technical expertise, and commitment to continuous improvement have set a benchmark in our institution. I have no doubt she will bring the same excellence and innovation to any national/ international quality assurance body.

Best regards,

Dr Riyadh Alzaheb

Dean of Quality and Academic Accreditation
University of Tabuk
