

Mandate Statement

Organization Name: ACE-EDUQUAL LTD

Website: <https://aceeduqual.com/>

1. Purpose and Core Mission

The mandate of ACE-EDUQUAL LTD is to serve as an international awarding and certification body that provides globally aligned academic and professional qualifications in medical sciences, engineering, technology, management, and related disciplines. The organization is dedicated to promoting educational excellence, standardization, and global competency through a structured quality assurance framework.

2. Organizational Authority

ACE-EDUQUAL LTD operates as an independent awarding body responsible for developing curricula, setting academic standards, conducting assessments, and granting certificates to learners who meet the required competencies. The organization authorizes and oversees learning partners worldwide, ensuring compliance with institutional, academic, and assessment standards.

3. Scope of Mandated Functions

ACE-EDUQUAL LTD is mandated to:

- Evaluate and approve training centres worldwide to become learning partners.
- Assess and approve trainer profiles based on academic qualifications, industry experience, and teaching competence.
- Provide standardized study materials, syllabi, and academic guidelines for all programmes.
- Oversee student training delivered locally through approved centres.
- Conduct examinations and ensure controlled and fair assessment procedures.
- Review submitted exam papers and verify student competency.
- Issue certificates to learners who successfully meet programme requirements.
- Maintain a continuous quality assurance and monitoring system across all partners.
- Support capacity building for institutions and trainers through professional development initiatives.

4. Programme Mandate

ACE-EDUQUAL LTD offers a broad portfolio of programmes, including Level-7 Postgraduate Diplomas in multiple medical specialties (e.g., Cardiology, Family Medicine, Gastroenterology, Radiology, Dermatology & Venereology, Gynecology & Obstetrics, Medical Ultrasound) as well as engineering, technology, logistics, HRM, and sustainability disciplines.

These programmes are mandated to prepare competent professionals capable of contributing to global workforce standards across healthcare and technical sectors.

5. Stakeholder Focus

ACE-EDUQUAL LTD is committed to serving:

- Students and healthcare professionals
- Engineering and technology practitioners
- Training institutions
- Employers and industry bodies
- Regional and international quality assurance networks

6. Alignment With Quality Assurance Principles

The organization adheres to international best practices in outcomes-based education, assessment integrity, trainer competency, institutional audit, and compliance monitoring. Joining INQAAHE aligns directly with our mandate to strengthen global quality assurance standards.
