

ACE-EDUQUAL LTD

Vision, Mission & Organizational Scope

1. Vision

To become a globally trusted awarding and certification authority that sets high-quality standards in professional, technical, and medical education, empowering institutions and learners worldwide through excellence, integrity, and innovation.

2. Mission

Our mission is to ensure access to high-quality education by developing internationally aligned curricula, maintaining strict quality assurance systems, accrediting competent learning partners, and certifying learners who meet established academic and professional standards. We strive to promote global competency and uphold integrity in teaching, learning, and assessment.

3. Scope of Work of ACE-EDUQUAL LTD

ACE-EDUQUAL LTD is an international awarding and certification body offering a wide portfolio of Level-7 postgraduate diplomas and professional qualifications across medical sciences, engineering, technology, management, and related sectors. We work through a global network of learning partners who deliver our programmes under our governance and quality assurance framework.

Our core operational areas include:

3.1 Approval of Learning Partners

- Training centres worldwide apply to become ACE-EDUQUAL learning partners.
- We conduct comprehensive institutional assessments focusing on governance, facilities, resources, trainer qualifications, and student support systems.
- Only centres meeting our criteria are approved.

3.2 Trainer Qualification & Approval

- Centres must submit detailed trainer profiles.
- Trainers are approved only if they meet academic credentials, relevant professional experience, and teaching competency standards.
- Continuous monitoring ensures ongoing compliance.

3.3 Curriculum Development

- We develop standardized syllabi aligned with international benchmarks.
- Curricula cover medical specialties, engineering, IT, management, logistics, safety, and sustainability fields.

3.4 Programme Delivery Oversight

- Approved centres recruit students and deliver training locally using ACE-EDUQUAL's official study materials.
- We monitor teaching effectiveness, learner engagement, and academic support systems.

3.5 Assessment & Examination Management

- Examinations are conducted by learning partners under controlled conditions.
- Completed scripts are submitted to ACE-EDUQUAL for independent review and verification.
- Our academic board ensures fairness, integrity, and compliance with assessment standards.

3.6 Certification

- Certificates are issued only after learners meet the required competencies and successfully pass examinations.
- All certificates are recorded, verified, and tracked for authenticity.

4. Quality Assurance Processes Overseen by ACE-EDUQUAL LTD

Quality assurance is central to our mandate. We maintain a multi-tiered QA system covering:

4.1 Institutional Quality Assurance

- Pre-approval audits of training centres
- Continuous monitoring of partner compliance
- Periodic re-evaluation and renewal of approval status

4.2 Academic Quality Assurance

- Standardized curricula across all learning partners
- Regular curriculum updates based on industry and academic developments
- Academic board oversight for programme content and assessment policies

4.3 Assessment & Examination QA

- Controlled examination processes
- Double-checking of exam scripts
- External moderation when required
- Safeguards to ensure fairness, transparency, and elimination of bias

4.4 Trainer Quality Assurance

- Eligibility verification
- Performance monitoring
- Mandatory professional development recommendations

4.5 Learner Quality Assurance

- Verification of student identity and eligibility
- Monitoring student progress
- Feedback and improvement mechanisms

4.6 Certification & Verification QA

- Digital tracking of issued certificates
- Validation systems for employer and institutional verification

5. Additional Relevant Operations

- Development of professional standards for health and technical sectors
- Collaboration with international bodies for quality enhancement
- Support for capacity building among learning partners
- Academic research support and curriculum innovation
