

The National Quality Assurance Agency for Education under the Administration of the President of the Republic of Uzbekistan (NQAAE) was established in 2025 and has recently commenced its operational activities in accordance with the national regulatory framework governing external quality assurance and accreditation.

NQAAE has initiated the process of conducting external evaluations and state accreditation of educational institutions and programmes. However, as the accreditation system has only recently been introduced and the first cycle of evaluations is currently underway, no external reviews or accreditation procedures have yet been formally finalized.

Upon completion of the first accreditation decisions, the list of externally evaluated institutions and programmes will be duly compiled and communicated to INQAAHE, and the relevant information will also be made publicly available through the Agency's official channels.
